

Occupational Health & Safety Policy

Copper and Optic is committed to ensuring a safe and healthy work environment to reduce and prevent the risk of injury and ill health. We strive to continually promote employee health and well-being through available programs and to encourage healthy lifestyles.

We are committed to fulfilling all legal and other requirements appertaining to OH&S and are dedicated to our continual compliance.

Copper and Optic strive to ensure all possible hazards and risks are known, understood, and recognised by all employees. Controls are implemented to remove hazards, mitigate risks, and prevent incidents and injuries.

We actively involve employees in matters related to health and safety through consultation, communication, and participation. Employee input is valued in decision making processes and ensured by a diverse OH&S committee.

Copper and Optic is dedicated to achieving these commitments by fostering a culture of OH&S responsibility and care. A further commitment to continual improvement and reviewing of our OH&S management system ensures we are continually striving to maximise our performance.

This policy will be regularly reviewed and updated to ensure its relevance and effectiveness in meeting our OH&S obligations and goals.

Andrew Wardle

A handwritten signature in black ink, appearing to read "A. Wardle", is positioned below the printed name.
